Second-year B. Tech. CSE student with a strong interest in Artificial Intelligence and Machine learning.

Seeking an internship to gain practical experience and contribute to real-world projects.

B.Tech. in Computer Science and Engineering at Vellore Institute of Technology, Chennai – 2nd Year | Expected Graduation: 2029

Languages: C/C++, Java, Python, JavaScript, Dart

Web Technologies: HTML, CSS, SvelteKit, Node.js, Express.js

Databases: MongoDB, Firebase, Supabase

Dev Tools: Git, GitHub, VS Code, IntelliJ IDEA, Android Studio, Flutter, npm, Figma, Canva, NumPy, CloudSim

Core Concepts: OOPS, Data Structures, Algorithms, Problem Solving

Experience:

Vice-President, Computer Club - St. Xavier's Collegiate School

- Led a team of developers to design and deploy official platforms for major school events(X-UBERANCE)
- Represented school in multiple Hackathons including **Smart Bengal Hackathon**; lead a team of **20+ developers** at events.
- Integrated backend services with NoSQL databases and spearheaded designs of frontend systems.
- Managed task delegation and version control workflows

Projects:

Speech Evaluation Web Application

- Lead a team of 3 to build a web app that evaluates uploaded speech videos

- Integrated ML Model for sentiment analysis, pitch detection, and facial emotion recognition
- Built backend services using Python and Flask with HuggingFace models

Parking Lot application

- Used Flutter and Dart to develop a Parking Lot interface to handle logistics

Energy-Aware VM Placement (CloudSim)

- Implemented PABFD and Round-Robin VM allocation policies in CloudSim 3.0.3 to reproduce Beloglazov et al. (2012)
- PABFD cut datacenter energy use by 48.6% with zero SLA violation; MBFD with migration cut 57.7% at ~3% SLA violation
